Nutraceutical solutions for Horses and Dogs

Info sheet with current pricing.

The Short Story of Horse Vood

It was all for Beta. He was my heart horse. He owned me for 33 years. He was the instigator for many things that I teach with and about horses these days...but that's for another day.

I originally made the Vood over a decade ago to help him when he was starting to show his age and old injuries started to show themselves more. I 'experimented' on him with a myriad of different formulas as I studied the effects and time to take effect. Im pretty impatient and would like to see some progress or a hint of something to keep going. I finally found the vood formula and it was apparent that it helped him in a relatively short time. I started the rehab horses on it when i was sure of a safe and effective formula for all and the positive results were there in 90% of horses. 10% refused to eat it so had to think of innovative ideas to get it into them. Usually, once they tasted it and taken it a few times, they started to lick the bowl with just dry vood. Some people make Vood treats or cookies. Be inventive!

Restore Repair Regenerate
Horse VOOD

Adaptogenic Nutraceutical Crisis Support

- * Anti - Inflammatory
- * Anti - Arthritic
- * Blood purifier
- ** Immunostimulant (helps immune system fight infection)
- * Aids in parasite reduction and removal Naturally

The short story of Dog Vood

Around the same time as the Horse Vood was developed and I was telling others that I think I found something here ... I had a friend ask about her dog and if I had a vood for dogs. Her dog was getting older and couldn't jump on the bed or into her van anymore without assistance and she just wanted to make him more comfortable. I did not even think about Dog Vood but I would formulate her dog something to try to help his symptoms. After more research and mixing I gave her some Dog Vood to trial. It helped her dog so much even i was surprised!! All within a short period of time, he was able and willing to jump on the bed and in the van again. This is how Dog Vood came about and since then, many dogs have benefited from Dog Vood.

Dog VOOD
Concentrated
Adaptogenic Healing
Nutrients

Anti-inflammatory
Anti-Aging
Anti-Arthritic
Anti-Ulcer

Immunostimulant (aids immune system fight infection)
Aids in parasite reduction and removal (naturally)
Blood Purifier
Skin Tonic

Rich in bio available micro nutrients, vitamins, minerals, EFAs

*Suggested feeding: Feed with a wet feed like raw food or use small amount of water and stir to cover kibble food.
Large dogs: up to 1 tablespoon
Medium dogs: up to 1 heaping teaspoon
Small dogs: up to 1 teaspoon
Tiny dogs: up to 1/2 teaspoon*

Dog VOOD proprietary ingredients include:

MSM - anti inflammatory
Diatomaceous Earth - stimulates metabolism and contains 15 trace minerals. Controls internal parasites and reduces stress. Absorbs poisons and safeguards stomach.
Flax - Omega 3 helps skin, allergies, inflammation, digestive disorders, slows growth of yeast and cancers and promotes overall well being.

Slippery Elm Bark - soothing and healing to stomach, digestions and calms inflammation
Turmeric - anti inflammatory, blood purifier, anti arthritic properties
SeaVegetables - kelp, rockweed, dulse
Neem - detoxifier and immune booster
Ashwagandha (Indian Ginseng)-anti spasmodic, anti cancer, anti stress adaptogenic properties

After these personal vood experiences, both with the dogs and horses, I started to give out little samples and some 'side effects' reported are a decrease in pain and inflammation and increased comfort levels. I now have an elderly dog who does amazing on raw food seasoned with Dog Vood.

Dog Vood is available is a small shaker size for trials. This is \$75.00/ shaker only
Large bag of 3 lbs is available for \$169 CAD
Plus shipping.

Magik Dust™

Concentrated Equine Super Food Formulas

Essentials * Senior * Relax and Renew

WHERE IS THE MAGIK?

In one word... Synergy = The combined 'magik' of the super food ingredients considerably enhances their proven powers of their individual effects.

WHAT ARE THE BENEFITS?

Besides being a superior natural immune boosting formula you may see many other benefits of the Magik Dust line. Some of these benefits may include:

Increase in Vitality

Enhanced food absorption

Healthier coat, skin and hooves

Healthier stronger joints

Ease symptoms of arthritis

Fights allergies and virus'

Prevents muscle fatigue

Supports IR horses

Weight balancing

Helps to detoxify the body

Restores balance to the body and mind

For optimal results have your horse regularly and properly trimmed. Eliminate all processed feeds. Magik Dust is suitable to feed alone or top dress a small amount of sprouted whole oats and a handful of black oil sunflower seeds ... or alternate with fresh fruits and vegetables. Feed daily, or as needed with Relax and Renew.

NO Preservatives

NO Fillers

NO Binders

ALL Natural

Organic Grade Food

Where's the Magik?

In one word... Synergy = The combined 'magik' of the super food ingredients considerably enhances their proven powers of their individual effects.

Benefits of Magik Dust may include

Enhanced food absorption

Increase in vitality

Promotes healthy coat, skin and hooves

Supports immune system function

Supports digestion and assimilation of nutrients

Builds healthy joints

Suppresses inflammation

Supports IR horses

For optimal results...discontinue processed feeds and supply horses with fresh water, grass hays, salt, minerals and plenty of exercise, with good trimming.

Suggested Feeding: 1 scoop (included) up to 2 times daily as needed. Top dress fresh fruits or vegetable scraps or use whole soaked whole oats/burnies. (Caution: some horses cannot eat grains)

The Magik Dust Line was started because of some of the very compromised and metabolically challenged horses that came through the Centre for healing. For those horses needing to come off of all kinds of processed feeds and medications, I wanted a whole food based 'booster of health' to feed to them.

Put hay - and horses love it. Put and once fed, they love it up.

FALL WINTER FORMULA

Diatomaceous Earth at its core is full of minerals and vitamins. It has 2% iron, 5% sodium, 19% calcium, 33% silicone and 3% magnesium. It also has a multitude of other compounds like copper, zirconium, manganese or even titanium. Using Diatomaceous Earth is great if you want to supplement nutrition. But it can be great to boost the hoof and coat condition. One of the primary uses for DE is also parasite control.

Ginger is a great herbal supplement for horses, with multiple beneficial properties. Known to be helpful to the digestive system, it is often included in supplements that promote good digestion and circulation.

Dandelion 1) Amazing for helping your horse's body flush toxins - 2) Packed With Antioxidants - 3) Immune System Booster - 4) Promotes Liver Function.

Alfalfa is nutritionally dense. It contains high levels of calcium, as well as magnesium, potassium, iron, phosphorus, lysine, vitamin C, vitamin K, and folic acid. Alfalfa helps slow down sugar absorption into the blood.

Chamomile is known for being a calming, soothing supplement that can have many great benefits for horses as well as being a natural anti-inflammatory.

Flax Supports healthy skin and coat. Helps maintain a healthy immune system. Rich source of Omega-3 fatty acids.

SAFE AND EFFECTIVE FOR METABOLICALLY CHALLENGED HORSES AND PONIES.

Contains L-Lysine and Magnesium / Proprietary formula

Magik Spray

Frog health is imperative for true body soundness. Take an active role in it's care and spray daily and liberally after cleaning

Other uses: skin conditions, sheath cleaning and disinfecting, superficial wound cleaning

Magik spray DIY

Simply a mix of organic ACV (Apple Cider Vinegar with the mother). Make it for yourself! Fill an average sized spray bottle with ACV and add about 15 to 20 DROPS of TTO (Tea Tree Oil).

For advanced cases of thrush add 7 to 10 drops of Oil of Oregano.

How to Apply??

1. CLEAN the foot. Thoroughly!!
2. SPRAY liberally over frog bulbs and in cracks
3. Treatment for thrush: daily until symptoms fade
4. Maintenance use 2-3 times weekly

Organic ACV naturally contains Acetic Acid, which quickly assists to help balance PH levels on the foot and create an inhospitable environment for fungus and bacteria.

Organic Apple Cider Vinegar

Add straight organic ACV to the horses (or your dogs) water dish or trough. Even if it is just pasteurized ACV It will still help the water to not grow any slime and helps the PH in the guts as well. Helps the water not freeze up as quick in winter as well.

For 100 gallon stock tank ... use about 3 to 4 cups ACV. Top off with a jug or two when filling water.

Magik Goop

Hoof & Healing Oils
